Dear Mr. Hein:

I am behind schedule on three more books and, as the enclosed shows, have a second one out. I believe one or two shots were fired from the area of the grassy knoll, possibly none were fired from the TSBD.

Roberts is a fink who knows less about the assassination than anyone writing about it, is untroubled by a lack of conscience, and couldn't care less because he is making money and kissing the asses of those upon whom he depends for news sources. He was present but hardly a participant in a four-hour debate I had with Louis Nizer and has since then declined every invitation to debate me on his own book. His is the work of shabbiest dishonesty and he is the least informed.

Sincerely yours,

Harold Weisberg
